

Welcome to Midcoast Maine

Nestled at the head of the Damariscotta River, a small historic harbor is the centerpiece of the twin villages of Newcastle and Damariscotta.

Dating back nearly three hundred years, this community is one of the earliest fishing centers on the Maine coast. Lincoln Academy founded in 1801 shares an equally proud history.

It is one of the oldest continuously running Academies in the United States and has served this region proudly for 218 years.

Lincoln is situated just an hour from Portland, the largest city in Maine and just over two hours from Boston, the hub of New England.

Lincoln Academy Summer

Lincoln Academy's 2019 Summer Program will combine a student-centered maker program with cross cultural immersion program. International students will live in Lincoln Academy dorms with local middle school students and undertake technical challenges involving computer coding, 3-D printing, laser cutters, wood and metal shop. They will also enjoy the Maine summer with field trips to famous Maine tourist spots including beaches, mountains, and fishing villages as well as a trips to Boston for college visits. Daily activities will combine English language skills with travel and innovative technology for an overall experience of global collaboration and creative problem solving.

Week 1

Day 1*: Arrive in Boston, catch a bus to Lincoln Academy. Light dinner at School

Day 2: Morning ESL, team building games, walk to downtown Damariscotta/Newcastle, open turf, bonfire and smores

Lincoln Academy Summer

Camp Directors:

Lu-Shien Tan is Lincoln Academy's Director of Admissions. Born and raised in Singapore, Lu-Shien has lived all over the world, including Malaysia and the US, and worked as a ship captain, salesman, and chef as well as an educator. He currently lives on the LA campus with his wife Monica, a dorm parent, and his two children who are both students at LA.

Kristi Curtis is an experienced educator who has worked with students from elementary school through college. A graduate of Lincoln Academy, Kristi spent a year as a high school exchange student in Norway. Kristi currently teaches math and serves as a dorm parent at LA and is a PhD in Curriculum and Instruction.

Camp Staff:

Lincoln Academy's summer program will be staffed by current LA students and recent graduates.
